TO GROWERS OF

Forcing Bulbs, Azaleas,

and Other Imported Dormant Stock.

WE WANT YOUR BUSINESS

AND GIVE BELOW A FEW OF THE REASONS WHY IT WILL BE TO YOUR ADVANTAGE TO PLACE YOUR FALL BULB ORDER WITH US:

FIRST. We will make you **first early** shipment of all kinds of forcing bulbs which are required for Thanksgiving and Holiday forcing. By doing this, you save about two weeks of important time over general orders placed in France or Holland.

SECOND. If any of the bulbs or cases of bulbs prove inferior on arrival we can replace them with satisfactory stock within five days, at original prices. Rejected stock from Europe cannot be replaced under six weeks, or must be re-purchased here at advanced prices and a delay in planting.

THIRD. It is undoubtedly an advantage to place the entire responsibility for your import stock upon one firm. By combining your entire order with us we accept responsibility for delivery of all the stock at the right time, and of the best grades that can be furnished. Knowing that you depend on us wholly for such supplies, we do our best to give you satisfactory results.

FOURTH. We will guarantee that the total cost of your imported stock if bought through us, will be as low as if placed separately with six different houses.

We ship no plants or bulbs in original cases without inspection at New York or Chicago.

We place no orders with foreign houses whose bulbs supplied us in previous years have not proven first-class in every respect.

Price is a secondary consideration in making our foreign orders. We have long since learned that **cheap bulbs** are often the dearest in the end.

If you favor us with all or part of your orders, we shall do our best to place you in a position **to use profitably** the stock which we supply, and aim to give you early deliveries of the right bulbs, so that you will not only have them in flower at the proper season but of quality which will enable you to successfully compete with your neighbors.

Let us hear from you and do not be afraid to write us fully what your trade requires in this stock.

Stock bought of us will be A No. 1 Bulbs on delivery, and if not satisfactory then in every way may be returned or exchanged.

We invite the most critical inspection, and customers are not expected to keep or use any that are not as represented herewith.

WE SHIP. . .

OUR RULE. . .
"ALL FLORISTS' STOCK IN SEASON."

TERMS: To customers of approved credit **60 Days.** Special **3** per cent. discount for cash in 10 days from list prices only; not from "Special" quotations and excepting **Net Cash** items.

WE DO NOT WARRANT. While we always aim to have the best Seeds and Bulbs, Roots and like stock from the most reliable growers, we give no warranty expressed or implied, nor do we guarantee the Seeds, Bulbs or Plants supplied by us, nor will we be in any way responsible for the crop either as to varieties or product, nor do we guarantee the successful flowering of any Bulbs or Plants which grow from same will be free from disease. If not accepted on these terms these goods must be returned at once and any money paid for same will be refunded. J. C. V.

MONEY MAKERS FOR THE FLORIST . . .

"WHITE STAR" BRAND

Giant Flowered Paper White Grandiflora.

(SUPPLY LIMITED).

We claim this to be the finest strain of "Grandiflora" type of Narcissus offered to the trade and florists to whom we have supplied same in past seasons will have no other. They are strong growing, free blooming, and show little of the tendency to come "blind" as does the "grandiflora" usually supplied. We are able to secure each year only a small supply of them and urge early orders.

Vaughan's XXX Double Nose TRUE DUTCH

Double Von Sion.

This is the florists old "stand by." There is, however, so much inferior stock sent to this country each season and which produces "green" flowers, that growers are somewhat loath to handle them. We know our strain of "Von Sion" to be pure and our grower is careful to keep them rouged; in short, they are such as can be classed with the above, "a money maker."

OUR "PARIS" BRAND FRENCH GROWN NARCISSUS VON SION ARE WORTHY OF A TRIAL.

Named Dutch Roman
OR MINIATURE
HYACINTHS.

Prices quoted are for first size bulbs and NOT for SECOND SIZE as generally supplied; we do not consider the second size worthy of planting.

Growing favorites for pot plants (grow 3 to 5 in a pot) and cut-flowers. Cheapest and earliest of the Dutch Hyacinths. The spikes are nearly equal to those from the second size named bulbs. These cannot be excelled for growing either as cut-flowers or pot plants, owing to cheapness of bulbs, and earliness of flowering. The named varieties are particularly good for growing three or six in a pot as they produce strong spikes, almost equal to those of the second size named; flowers are stronger and larger than blooms of French Romans.

VAUGHAN'S "LONDON MARKET" BRAND.

LILY OF THE VALLEY.

We offer the three highest grades of Lily of the Valley Pips which the Hamburg district produces. Our "London Market" brand is the same select pip as is forced for Christmas sales by the London Growers. It is the finest selection made, producing often 10 to 12 bells and well worth the price asked for it. That "Cheap Valley" is always dear has been proven by every experienced grower. For medium and late forcing our "Premium" brand will satisfy every one. We shall deliver this stock as early as the same can be secured from the growers after maturity. Pips will be of the best quality which the season affords, carefully grown, as well as ripened and of full size. Such as with proper handling ought to give most satisfactory results. We pay our growers more than the market price to be sure of picked stock.

WE ARE EXCLUSIVE OWNERS OF THE FOLLOWING BRANDS:

"LONDON MARKET" BRAND.

The best Pip for Christmas Forcing.

We introduced this Select Christmas Forcing pip to the American trade under the brand "London Market" and they have given such good satisfaction that some of our envious competitors have seen fit to sell inferior stock under this name and brand. There is but one "London Market" quality and we control the selected pips of the entire crop, which is limited.

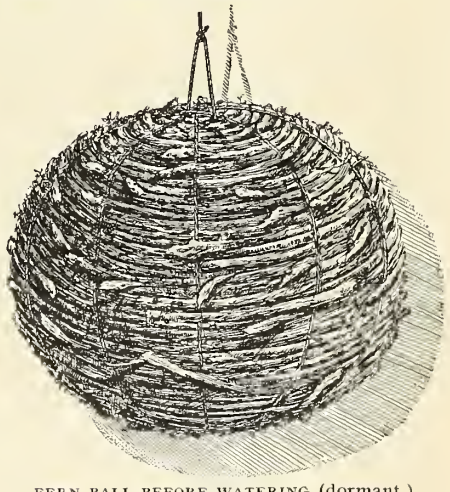
The Beautiful and Interesting Japanese Novelty "MIKADO FERN BALL."

Will Grow and Thrive Under the Most Adverse Conditions.
A Profitable Fern for Easter Sales.

JAPANESE FERN BALL—IN LEAF.

Florists will Find a Ready Sale for These Either DORMANT or in LEAF. The supply last year was not equal to the demand.



FERN BALL BEFORE WATERING (dormant.) About 8 inches diameter.

MIKADO FERN BALL IMPORTED FROM JAPAN.

This beautiful novelty is an importation from Japan and is certainly the finest addition to the Fernery yet introduced. The Ball is composed of the Japanese Island Fern Roots and Sphagnum Moss, and so constructed as to send out leaves of beautiful emerald green from every point. They grow rapidly, and make a handsome ornament for the home, conservatory or greenhouse.

DIRECTIONS FOR STARTING.—Place ball in water for 15 minutes and then suspend in any desired position; repeat every two days until growth is started, after which sprinkle occasionally as required. To use in fern dish, cut ball in halves, placing flat side down, thus getting two dishes of beautiful ferns. The Fern Ball may be allowed to dry up at any time and be set away, and started again by watering as before.

These Fern Balls Usually Arrive from Japan about DECEMBER. Orders, however, should be placed at once, as supply is small.

SINGLE EARLY TULIPS.

It is well known that Tulips are again coming into popular favor, particularly such varieties as La Reine, Keizerskroon, Mon Tresor, Yellow Prince, Gold Finch, Tournesol red and yellow, Murillo, and several others, growers having found them very profitable the past season and we anticipate even a larger demand for these flowers next season.

The bulbs offered below are produced by a specialist in Holland and are all guaranteed strictly first size. Please do not compare them with the 2nd and 3rd size bulbs sometimes offered at low prices. If such stock is wanted we will import same especially for growers who desire it and on this class of bulbs we are in position to meet all competition. We do not, however, advocate planting anything but the best bulbs obtainable.

We have supplied some of the largest growers in the market the past season with our special strains of Tulips and we know that our stock is of the right kind. In short, if you want to obtain a high grade of Tulips we are in the market to supply you with such.

Early Ordering is Advantageous To You.

NARCISSUS

Paper White Grandiflora.

It is a well known fact that of late years this Narcissus has shown a tendency to come blind and especially so when grown from small bulbs.

In placing our contracts with French growers we are careful to secure the largest bulbs that are obtainable and the grade of these which we offer under the name of "Star" brand is the largest stock to be had in France, and we are only able to obtain each year a limited number of them. Our experience has been that they are well worth the difference in price over the smaller grade. However, the quality which we offer under the heading of "Fancy" is a selected grade from the regular stock. If our customers desire the ordinary commercial run of these bulbs we can import same and will make price to meet any reliable competition. As stated before, our supply of Giant Flowered is limited, and early orders are necessary to secure them.

Narcissus or Daffodils.

NARCISSUS.
DOUBLE VON SION
"cultivated,"
French gown.

FRENCH DOUBLE VON SION.

"PARIS" BRAND.

A Narcissus specialist in France has been breeding up for several years past a pure strain of Narcissus Von Sion, and owing to the careful cultivation given them they produce blooms almost as large as the Dutch Von Sion. These cultivated French grown Von Sion have been forced by a few large eastern florists the past two years and have given good results. Under proper treatment they can be bloomed easily for Christmas, and even some weeks earlier.

These cultivated Von Sion are not to be confounded with the wild Von Sion offered by French growers and sold at low figures. We want each of our customers to try at least a few thousand of these for Christmas blooming, and if cultural directions as mentioned below are followed, we believe they will give every satisfaction. **Per 100, $1.00; per 1000, $16.00.**

"NARCISSUS, French grown VON SION. for forcing for Christmas flowers, we would advise placing the bulbs as soon as received, in August or September, in flats outside or in cold frames. They can be brought into the house for forcing about November 15th or as late as December 1st. When brought in the flower stalks should show from 3 to 5 inches in the flats. These bulbs when so started will stand damp heat which is contrary to the habit of Dutch Von Sion."

"DOUBLE VARIETIES."

"CHINESE NARCISSUS"

AND

SWEET-SCENTED "JONQUILS."

The varieties offered below include many of the most popular and salable sorts of this favorite forcing flower which is advancing yearly in popularity. These flowers are especially adapted for florists, being showy, fragrant and lasting.

White Flowered LILIES.

EASTER ✤ 1901 ✤ APRIL 7th.

Japan Grown Lilium Longiflorum. ✤

Orders placed NOW will be most certain of delivery and secure INSIDE PRICES.

Japan Lilium Longiflorum have proved a most desirable substitute for Lilium Harrisii for late or Easter flowering because of their comparative freedom from disease, as well as being unmixed with the latter variety. While they are later blooming than Harrisii, Florists should experience no trouble to bring them into flower in good time for Easter.

Japan Grown Lilium Giganteum Multiflora.

Florists' have no doubt noticed in Japan Lilium Longiflorum an occasional plant much different from others, taller in growth with handsome foliage which covered the stem from the pot up and producing much more abundantly of flowers than its neighbors. This is the variety GIGANTEUM MULTIFLORA, true stock of which has been most difficult to secure—we have however this year a few thousand of the sizes mentioned below. Our Japan grower assures us that these are true to name and can be expected to produce **thirty to fifty per cent more flowers** than the common Japan Longiflorum.

Regular Imported French Stock.

(Scarce.)

The old-fashioned white Lily and which is again coming into favor for cut-flowers being planted largely out of doors for summer blooming. **Per 100, $4.50; per 1000, $40.00.**

Lilium Candidum "Thick Petaled."

It is known to most growers of this Lily that there are two strains. The flowers of each show in substance a marked difference. The better one shows a wider flower, with petals much more firm and greater substance. We import at a much larger cost the true **"THICK PETALED"** bulbs, and they have given our customers excellent satisfaction. We offer it as the best and most substantial type of Lilium Candidum.

Per 100, $6.50; per 1000, $60.00.

LILIUM LONGIFLORUM—BERMUDA GROWN.

Bermuda Lilium Longiflorum.

These are now being largely planted for Easter blooming, owing to the fact that they have shown in late years comparative freedom from disease, and as is well known they produce more flowers than do the Japan grown Longiflorum, furthermore, they are of uniform type. Florists' will do well to try them.

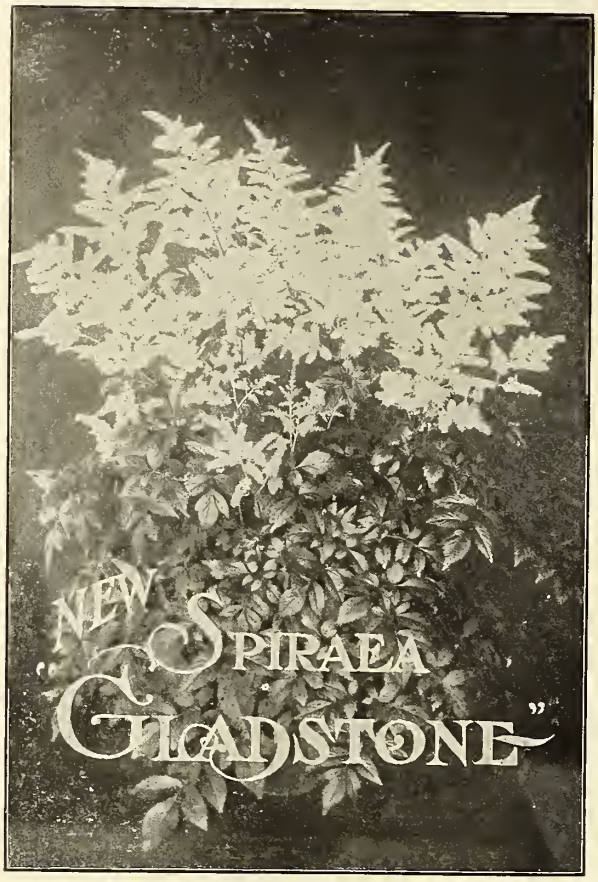
Hardy Japan Lilies, Spiraea.

GLOXINIAS AND Giant Flowered Tuberous Rooted BEGONIAS.



NEW SPIRAEA=GLADSTONE.

The popularity of the Spiraea has been of late years decidedly on the wane, however, since the introduction of the grand variety "Gladstone" a new impetus has been added to the demand. As an Easter plant the variety Gladstone cannot be surpassed, producing as it does, enormous spikes of pure white flowers in great profusion of bloom, and resplendent with foliage of a beautiful green. We mention below opinions of Messrs. Strombach and Kanst of the Chicago Parks who have grown this choice new sort the past season.

"VAUGHAN'S SEED STORE, Dear Sirs: As regards the Spiraea Gladstone which I received from you last December, I will say that it is one of the best varieties I have ever seen. The greater number having from fifteen to twenty spikes with stiff stems and it is an easy forcer. They were kept in a temperature of 45 to 50 degrees all winter up to March and from that time until Easter at 65 degrees.

Very truly yours, C. J. STROMBACH, Head Gardener"

"VAUGHAN'S SEED STORE, Dear Sirs: The Spiraea Gladstone received of you last fall, came out fine, and was greatly admired by visitors at the conservatory. I think it is the finest variety I have ever seen.

Yours truly, FRED KANST, South Park Gardener"

Single Tulip.

We introduce to the trade this magnificent new tulip which is unsurpassed by any other variety of its color. As a cut flower or as a pot plant for Easter sales there is no single tulip that can compare with it, having obtained the past season as high a price at Easter time as was secured for the fancy double variety, "Murillo." We control a large stock and offer same at the low prices mentioned to introduce them.

VAUGHAN'S LIST OF SEASONABLE SEEDS for FLORISTS.

LARGE-FLOWERING CHINESE PRIMROSE.

Primula Sinensis.

CHINESE PRIMROSES

OUR PRIMULA SEED has been procured from the most celebrated English, French, German and American specialists and is remarkable for great diversity of coloring, as well as splendid habit of the plants and the large size of the flowers, measuring from 1½ to 2 inches in diameter, being perfectly round and beautifully fringed.

Vaughan's International Primula Mixture.

This mixture is composed of the most salable colors of Single Flowering Chinese Primulas, the best whites, pinks and reds with a sprinkling of other colors enough to give a large variety of colors, the most important shades predominating. It contains some of the Giant sorts, some Fernleaved, some blue; also some with dark leaves and stems. We have taken special pains to make this mixture as complete as possible and unreservedly recommend it to everyone.

PRIMULA FORBESI.

PRIMULA FORBESI, THE "BABY PRIMROSE."

Blooms in three months from seed.

This is unquestionably one of the most profitable plants. It begins to bloom in three months after sowing and continues to produce flowers for ten months in succession. The flowers are very graceful, not quite half an inch across and are of a most pleasing rose color with a yellow eye. They are borne on erect stems, 10 to 12 inches high, in tiers, and remain fresh for over a week after being cut, new buds opening every day. The plant is a vigorous grower, thrives in the shade or sunshine, even in a cool house. Pkt. (500 seeds), 25c.

Obconica Grandiflora Fimbriata.—This is a grand improvement on the Obconica. Flowers are borne in the same profusion as on Obconica Grandiflora. The stalks are stiff, the flower heads large and well formed, while the single flowers are arranged like those of the Chinese Primula. Pkt., 25c.

Obconica Grandiflora Rosea.—Flowers are as large as those of the Grandiflora but the color is a beautiful clear pink, which is a great improvement over the former, since that mixture contains a number of washed-out colors. Pkt., 25c.

Obconica Grandiflora Alba.—The well-formed, large flowers of this variety are borne in large clusters, and are of purest white with a yellow eye. For cut and pot culture this will soon be a general favorite. Pkt. (200 seeds), 25c.; 3 pkts. for 70c.

Primula Veris is one of the best selling plants in early Spring. We yearly dispose of large quantities at our Chicago store. The plants retail readily at 15 cents apiece and they are as easily cultivated and wintered over as a Parsy.

BOSTON FERN.

BOSTON FERNS

Nephrolepis Exaltata Bostonlensis . . .

This popular fern has proven one of the best decorative plants of recent introduction. It is a rapid grower, works up fast and is a good seller. The distinctive feature of this beautiful fern is, the fronds are much larger than the common sword fern, and do not stand so stiff, but droop over in a graceful manner. Excellent for making large specimen plants. Every florist should grow the Boston Fern. We have the fiuest stock in the West. The plants we offer are strong, bushy and not over-potted.

Nephrolepis Washingtoniensis.

—There is no other fern of its class in cultivation, so distinct and majestic. The fronds are remarkably thick and metallic in appearance; grow eight feet and more in height and arch gracefully; have a width of 12 to 15 inches on fully developed fronds. The leaves, although very hardy are not at all brittle, and will stand exposure better than any other fern. This fern is useful only when full grown, never in a 3 or 5 inch pot, but as a specimen plant from 6 to 12 inches it is simply grand, and will be used largely as a decorative plant.

Price, 2½ inch pot plants, each, 35c.; 3 for $1.00; doz., $3.00.

ASPARAGUS SPRENGERI.

This new Asparagus has proven to be useful in a variety of ways, especially so as a pot plant for decorative purposes, or for planting in ferneries or hanging baskets. It grows freely the whole year round. The plant is very vigorous, producing sprays 4 to 5 feet long of fresh green feathery foliage, which are handsome for bouquets, wreaths or sprays, and remain perfect for weeks after cutting. It can be grown easily planted out on benches, in a night temperature of 60 degrees. Both plants and cut sprays meet ready sale and, all in all, it is one of the most profitable plants we have ever grown. No up-to-date Florist can afford to be without this new and free growing Asparagus. We have a grand stock.

The Grand New Ageratum "Stella Gurney."

A short, compact grower, well branched and extremely free blooming. The individual tufts are very large and dense, and the color is the most inteuse blue of as an agreeable shade as we have ever seen iu Ageratums. It has a velvety texture quite unlike the cotton-like flowers of this class. It is a thrifty grower, propagates easily, and by its neat, short and dense flowers of brilliant blue furnishes a bedding plant without an equal. It can be used as a border around geraniums, with dusty Miller or other combination, always making a pleasing effect. Grown by us two seasons, and it has bloomed from early Spring to late in the Fall, adding greatly to its usefulness and desirability. The best Ageratum in existence. Each, 15c.; doz., $1.25; per 100, $8.00.

New Pink Hibiscus "PEACHBLOW."

NEW HIBISCUS.

This is one of the finest plant novelties offered in recent years. It is a "sport" from the double red Hibiscus Rosea-Sinensis; the flowers are double and from four to five inches in diameter; of a charming, rich, clear pink color, with a small deep crimson center; **an entirely new and most beautiful shade;** it blooms abundantly and continuously even on small plants during the entire summer and fall months; may be easily wintered in greenhouse or dwelling. Large plants, two or three years old make a magnificent show.

We are confident that it will give entire satisfaction to all who grow it, either in pots, or plants out in the garden. It is also a good winter bloomer in the greenhouse or sunny window. We offer three sizes:

Price, strong plants from 2½ inch pots, each, 20c.; 6 for $1.00; 12 for $1.50; 100 for $10.00.

THE CRIMSON RAMBLER.

This rose sold in 6 and 7 inch pots in Eastern cities the past season at $5.00 and $7.00 each.

As a pot plant for retail sales this rose is incomparable. Its hundreds of blossoms all open together and seem to improve for at least two and even three weeks. The bright crimson color holds without fading and contrasts finely with the glossy foliage. **It forces easily.** We have fine dormant stock.
